Sure, you want windows that are energy efficient, easy to operate, maybe even with easy clean glass. But ... we all know you want windows that look good.

Nothing enhances the interior of your home like the charm of QuikCase window and door casings.

Pick from four frame styles and three moldings in two widths. QuikCase builds your casings complete with extension jambs right in their factory with patented technology that ensures a quality fit every time.

And because we pre-build your casings, they can be installed in about 10 minutes reducing the disruption to your home.

Caution, your neighbors may spend more time looking at your QuikCase trim than your new windows!

Cover: **CRAFTSMAN** with **CROWN**

Shown here: **STOOL & APRON**

INSTALLED IN 3 EASY STEPS...

MEASURE

Measure the jamb depth with a combination square.

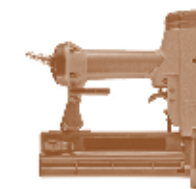

Place the QuikCase unit face down on a clean surface and mark the jamb.

CUT

Use your combination square to set the QuikCase saw guide depth.

Rip your jamb to size.

FASTEN

Align QuikCase for even reveal.

Fasten first through casing face, then through jambs.

WINDOW DEALERS: TAKE THE QUIKCASE 10 MINUTE CHALLENGE!

We will send you one (1) QuikCase window unit up to 144" U.I. or (6 ft x 6 ft). If you can't install it in 10 minutes, it's free. Give us a call!
